

# NEW BRANDING & WEBSITE

Newport Village Hall  
gets a new brand,  
website and booking  
system to fly in 2023

"We have been working on developing the new system and the website for the past 6 months and we are really excited for our users and the general public to be able to use it. I'm incredibly grateful to the Management Team here at the village hall who have all helped to make the new branding and website a reality as well as NW1 Marketing who designed and developed the site"

**Clive Edwards**  
Chairman  
Newport Village Hall

Newport Village Hall has recently launched new branding, a new website and online booking system.

The new system allows users of the hall to book their hire space for groups, clubs, birthday parties and other events and pay online.

With the hall under new management and looking to grow its user base following the ill-effects of the COVID-19 pandemic this new addition is seen as the start of a brand new era for the already popular village hall.

The new branding will shortly be brought to life as the external signage at the hall is due to be updated during phase two of the project.

In what is an exciting period of change for the long established venue lots of new initiatives are planned including a schedule of events for the second part of 2023 including tribute acts, comedy shows and children's entertainment.
